

Positive Change Core

Appreciative Inquiry Foundations Course

Date: May 11-13 2009

Time: 8.30 am to 4.30 pm

Location: William Penn House

515 East Capitol St., SE Washington, DC 20003

An Approach for Faster and Deeper Understanding of Change

A 3-day workshop for individuals, groups, and group leaders to gain a **fresh perspective** on an old idea. It is an opportunity to **learn how to turn dialog into action**.

Appreciative Inquiry is a strength-based approach to dialog that brings a whole new level of understanding, collaboration and action to issues that we may never have thought possible. It is research into the root causes of success and asks "What goes well around here, and how can we get more of it?"

AI is also a great resource for building bridges and developing broad community collaborations that benefit all of us.

*"If you want to know what the future
is, be part of its development"*
(Peter Drucker)

This workshop is ideal for people in position of leadership, and for groups with projects or tasks that are calling for **creative** and **innovative** approaches.

Course facilitators, **Marge Schiller PhD.** and **Joyce Lemke**, have worked with a variety of groups from schools to social services, and advocacy groups to business leaders. For three days, they will be at The William Penn House teaching a dynamic and life-changing course.

The workshop is sponsored by **The Positive Change Core**.
